

# License/Usage Terms

**TRIAL Edition:** The Trial Edition of Webserver Stress Tool may be used without purchase for personal and commercial use and may be installed and used on as many machines as desired.

**Single User Licenses** (Professional Edition or Enterprise Edition): For payment of the license fee the licensee is granted one (1) non-exclusive, non-transferable license to install and use Webserver Stress Tool on one (1) computer at a time or install Webserver Stress Tool on one (1) computer to be used by multiple users. It is expressly forbidden to install Webserver Stress Tool for use on multiple computers without paying additional license fees. Licensee warrants that they will make a reasonable effort to remove unused licenses of Webserver Stress Tool.

**Five User License:** For payment of a 5 user license fee the licensee is granted five (5) non-exclusive, non-transferable licenses to install and use Webserver Stress Tool on five (5) computers at a time owned by one person, company or institution and located on one property owned by this person, company or institution (e.g. campus or business premises). It is expressly forbidden to install the 5 User License of Webserver Stress Tool for use on other computers without paying additional license fees. Licensee warrants that they will make a reasonable effort to remove unused licenses of Webserver Stress Tool.

**Site License:** For payment of the site license fee the licensee is granted one (1) non-exclusive, non-transferable license to install and use the Enterprise Edition of Webserver Stress Tool on one (1) or more computers owned by one person, company or institution and located on one property owned by this person, company or institution (e.g. campus or business premises). It is expressly forbidden to install the Site License of Webserver Stress Tool for use on other computers without paying additional license fees. Licensee warrants that they will make a reasonable effort to remove unused licenses of Webserver Stress Tool.
